Corrigenda for
A SNOBOL4 Primer

Madge T. Griswold and
Ralph E. Griswold

April 28, 1981

A list of corrections to *A SNOBOL4 Primer*, published by Prentice-Hall follows. As errors are found, corrections are made to subsequent printings. Consequently, these errors may not be present in recent printings.

In this list, line numbers are counted from the top of the page. This line numbering system was chosen for clarity, although it causes extra work in locating an error near the bottom of a page. Page headings and blank lines are not counted, but section captions and lines of text are.

There may, of course, be other errors that are not noted here. We will appreciate having such errors called to our attention, as well as any errors in this corrigenda.

Thanks go to individuals who called these errors to our attention: There are too many people to list here, but their help is nonetheless very much appreciated.
